

# SWAN Workshop: “Driving a Smart, Resilient Water Future in the UK”

Led by Matt Kirk, Head of Optimisation (Anglian Water Services)

October 13th, 2022

# SWAN Members

Global leaders in advancing smart water worldwide.

SWAN is home to diverse industry leaders across key audiences. Through regional and global collaboration, SWAN Members are proactively influencing the water sector and creating a smarter, more resilient water future.

We provide a platform for progress and collaborative space for global curious minds to share information, knowledge, and solutions.

# Five reasons to join SWAN

## 1. Networking

Interact with utilities, solution providers, and diverse ecosystem members. Share best practices and identify areas of collaboration.

## 2. Research

Access and contribute to cutting-edge smart water research and white papers on trending topics shaping the sector.

## 3. Collaborative Initiatives

Tap into SWAN's Americas Alliance, APAC Alliance, European Utility Alliance, and Digital Twin Work Group. Engage in Data-as-a-Service & Smart Metering calls.

## 4. Marketing

Be featured as a leading smart water thought leader, showcase case studies, and share your valuable insights.

## 5. Leadership

Participate as a Lead Partner in a SWAN Alliance. Speak at events about your smart water journey and accelerate the industry!

**SWAN Membership also includes 1-4 complimentary passes to the SWAN Annual Conference.**

# Workshop Agenda

10:00 – 10:05 am

**Session Opening**

10:05 – 10:20 am

**Keynote Speaker: Dr. Timothy Farwell**

10:20 – 11:10 am

**Adapting to the Realities of Climate Change**

11:10 – 12:00 pm

**Predicting the Unpredictable through AI and Machine Learning**

12:00 – 1:00 pm

**Lunch**

1:00 – 2:00 pm

**Utility-Led Interactive Roundtables**

2:00 – 2:20 pm

**Roundtable Recap by Table Representatives**

2:20 – 2:30 pm

**Session Summary**
