Let's Solve Water

# Workshop Goal

To create a **fun, relaxed,** and **collaborative experience** that **encourages attendees to become contributors**, offering diverse perspectives across **relevant topics** impacting **water/wastewater/ stormwater** utilities.

# What do we mean by Participatory, Purposeful & Productive?

- Meaningful and useful interaction between participants (not ‘attendees’)
- Harnessed experience versus contributions from  few experts
- Highly collaborative atmosphere, questions and debates are encouraged
- Encouraging participation vs passive attendance (conversation > presentation)
- Participants contribute to learning and outcomes -> help shape their own takeaways

**Rule 1:** Whoever shows up are the right people.
**Rule 2:** Whatever happens is the only thing that could have.
**Rule 3:** Whenever it starts is the right time.
**Rule 4:** It’s over when it’s over.

# Choose Your Adventure

1. **"How do we democratise digital transformation?"**
   **Main Room**
   Led by Javier (Canal de Isabel II)

2. **"Resistance to Change in Digital Transformation"**
   **Main Room**
   Led by Afaf (Kahramaa)

3. **"How can we ensure that AI transformation is human-centred? "**
   **Breakout Room No. 1**
   Led by Ed & Brogan (Univ. of Exeter & Arup)

4. **"How do we attract the best minds to the water industry?**
   **Breakout Room No. 2**
   Led by Richard F. (WRc)

5. **"Digital Twins for Network Visualisation"**
   **Breakout Room No. 5**
   Led by David Hartwell (Atos)

6. **"Future Water Wise Cities"**
   **Breakout Room No. 17**
   Led by Cecilia (Bentley)

7. **"Nitrous Oxide: The Sleeping GHG Giant"**
   **Breakout Room No. 19**
   Led by Alex Barter (B4T)
